

# BARON

Health & Safety Consultants

## Real Nurses. Real Expertise. Real Results.

The growing operational complexities of workplace injuries often leaves companies trapped in a cycle of high costs and administrative confusion. When internal teams lack valuable clinical insight, injuries can spiral into manual processes and long-term claims, leading to inconsistent results. Rising WCB premiums, unclear recovery timelines, and a lack of transparency can directly influence your health and safety goals.

At Baron, we solve these challenges by being your go-to experts from the moment an injury occurs through to official return to work dates – and everything in-between. Our healthcare division, exclusively staffed by Registered Nurses with emergency room experience, applies clinical precision to every case. By integrating our five core services we transform workplace injuries into a structured and knowledge-driven process that ensures your bottom line is always protected.

## Meet Baron: Your New Partner in Occupational Health & Safety

We are Baron Health & Safety Consultants, a specialized firm who brings years of valuable first-hand medical expertise to every workplace injury. This clinical foundation and distinctive emergency medicine approach allows us to deliver accurate virtual assessments and structured injury management that streamlines the needs of the injured worker with the operational requirements of the employer. In addition, we also pride ourselves on being “WCB claims nerds”, advocating for your company with WCB to ensure claims are fair and accurate for all of those involved.

Complementing our healthcare team is our safety division, which is composed of CRSP-certified experts with 15+ years of experience. As experts in OH&S Legislation and risk mitigation, this division provides noteworthy opinions, recommendations, and guidance on everything from on-site safety concerns to incident response and management.

Choosing Baron means securing a reputable partner that understands the complexities of workplace injuries, WCB claims, and the healthcare system. The result? A newfound degree of efficiency to both mitigate and manage occupational injuries, ensuring all parties are aligned on expectations and what it takes to achieve the same goals.

“Paige and her team at Baron Health & Safety Consultants have been instrumental in the onsite injury management and claims management success the organization has had over the past 2 years. The attention to detail and unwavering commitment to positively impacting our employees is what sets Baron apart in the industry.”

- Kelly L., Director QHSE

## Comprehensive Health & Safety Services

### Virtual Triage

We provide immediate, nurse-led virtual assessments to ensure your workers receive the right support when they need it most. We ask targeted questions to drive on-the-spot guidance that initiates a safe and confident road to recovery.

### Injury Management

Our team provides attentive support from the initial occurrence of an injury through to the official return-to-work date. We create return-to-work plans, establish transparent communication amongst involved parties, constantly monitor progress, and even assist in coordinating modified work duties with your team.

### Active Claim Management

We keep your company's best interest top of mind, acting as an expert advocate for active claims with WCB. Every claim we are a part of is handled effectively and efficiently to minimize the impact on your premiums.

### Historical WCB Claim Cost Relief

This service is offered at no cost to your organization. We conduct risk-free reviews of historical WCB claims to identify specific opportunities for cost relief and premium reductions. Our team applies unique medical insights to recognize red flags which have proven to help reduce premiums when relief is justified.

### Program & Policy Development

Whether building from the ground up or modernizing outdated documentation, we will develop or refine programs/policies that establish clear accountability and mitigate risk. By integrating proven best practices into your crucial documents, we transform operational ambiguity into a framework of confidence and long-term peace of mind.
